## Marilyn Knight, M.S.W.- Active Shooter

Ms. Knight specializes in Crisis Management, Security and Violence Prevention consulting. She has consulted with Fortune 500 companies in the areas of Violence Prevention, Threat Assessment, and Organizational Change and Crisis Management. She responded to two US Postal Service Shootings, the World Trade Center Terrorist Attack and the Oklahoma City Bombing. She has been the Director of a MIOSHA CET Grant training numerous Michigan companies in how to develop workplace violence prevention and crisis management programs.

An active shooter is someone actively engaged in killing or attempting to kill people in a confined and other populated area. These horrible situations are by their very nature unpredictable, evolve quickly, and cannot be completely prevented. However, with proper training you can learn to avert and prepare for potential active shooter situations.
